AGNES'S STORY

Agnes's Story

64 year old Agnes lives alone and is an amputee but is also at risk of losing her second leg due to Osteomyelitis. She uses a wheelchair and has greatly reduced mobility.

Agnes was living and sleeping in one room because her property was unsuitable for her needs. She was offered a ground floor property but couldn't move in until new, wheelchair safe flooring was fitted.

A £200 grant towards flooring costs has enabled Agnes to now move into her new home. She's delighted that it is also closer to local shops and activities.
