GREGG'S STORY

Gregg's Story

Gregg is studying for his GCSE's and A Levels but his education was interrupted by his medical conditions. He has ADHD, Asperger's and mental health problems, suffers from depression and struggles with obesity.

Recently, he was allocated a new flat by his local Council, where he will be supported by his family and carers. This is great news for Gregg and will motivate him to complete his studies,

improve his independence skills and lose weight. Unfortunately, the family cannot afford new carpet for the flat, which must be laid before Gregg moves in, as he is highly sensitive to and anxious in non-sound proofed rooms.

We made a grant of £150 towards new carpeting for the flat, which will make a huge difference to Gregg's comfort at home and to his goal of independent living.
